

To do: Receive a grade

Due: Monday, 2 December 2024, 11:55 PM

This assignment has two component parts, the team submission and your individual peer assessment. All components must be submitted by end of unit 6.

Part 2: Peer review (individual)

Whereas component part 1 was a group submission, part 2 is an individual submission.

At the end of the week, you will also need to submit your peer assessment form, available in the [Module Resources](#) page to the submission portal below. Please see guidelines (on the Department’s website) on the use of the [form](#), as well as guidelines on peer [review](#) (Group/Teamwork).

If you do not submit an assessment for your peers, your score will be determined by your tutor. You will receive your final grade for both components through this portal.

There is no specific word count for part 2.
