

Feedback for RRMP Research Presentation [Formative]

Tutor completing formative feedback: Karen Outram	Student number: Oi Lam Siu
Details of any extensions etc:	Submission Attempt: Formative

Thank you very much for submitting your formative Research presentation proposal on time.

For your references, please remember you will be using a List of References and not a Bibliography for your summative as a title. The content looks as though it has a cohesive direction and that you have planned the direction you want to take for the summative. When you actually come to develop the summative content, keep it very focused and don't allow tangents to occur.

If your subject is similar to your Literature Review, you need to make sure that you engage in research/discussion that comes from a completely different angle than your Literature Review to avoid self-plagiarism. You have to 'build' upon the subject from the Literature review and not merely just re-interpret the subject.

The basic outline submitted appears focused and so do keep that focus in the summative itself, so that deep research of a particular topic can occur. Also ensure that citation takes place in your oral presentation, on your power point and your transcript as noted, there is not currently a reference list suggested at the formative stage. Ensure there is a full and diverse reference list for the summative submission itself.

I look forward to your summative submission, in the meantime please reflect on all of the above and the very best of luck for the summative itself.

With best wishes

Karen
